20. **(Canceled)**

21. **(Currently Amended)** A method, comprising:

- displaying a plurality of games associated with pari-mutuel wagering, **wherein each game is a respective type of casino-styled pari-mutuel wager;**
- receiving a selection of a first one of the plurality of games;
- in response to the selection of the first game,** displaying a plurality of tracks where the first game is available;
- receiving a selection of a first one of the plurality of tracks;
- receiving a first wager associated with a first event that is at the first track, wherein the first wager is based at least in part on the first game;
- displaying two or more options, wherein a first option is to switch tracks and a second option is to switch games;
- if the first option is selected, then:
 - displaying at least a portion of the plurality of tracks where the first game is available;
 - receiving a selection of a second one of the plurality of tracks; and
 - receiving a second wager associated with a second event that is at the second track, wherein the second wager is based at least in part on the first game;
- if the second option is selected, then:
 - displaying a plurality of games that are available at the first track;
 - receiving a selection of a second one of the plurality of games; and
 - receiving a third wager associated with a third event that is at the first track, wherein the third wager is based at least in part on the second game.

22. **(Currently Amended)** The method of Claim 21, wherein the displayed options comprise a third option to play the first game again, and further comprising:

- if the third option is selected, then:
 - displaying a plurality of events that are at the first track, **wherein each event is a respective race;** and
 - receiving a fourth wager associated with at least one of the displayed plurality of events, wherein the fourth wager is based at least in part on the first game.

23. **(Previously Presented)** The method of Claim 21, further comprising:
displaying at least one link to at least one instructional frame;
in conjunction with receiving the selection of the first game, receiving a selection of
the at least one link; and
displaying the at least one instructional frame, wherein the at least one instructional
frame comprises:
a plurality of rules for playing the first game; and
at least one simulated play of the first game according to the plurality of rules.

24. **(Previously Presented)** The method of Claim 23, wherein the at least one
instructional frame comprises a link to a game play frame, wherein the game play frame
allows input of a wager associated with the first game.

25. **(Previously Presented)** The method of Claim 21, further comprising:
in response to receiving the selection of the first track, displaying track information
associated with the first track, wherein the track information comprises post times and odds.

26. **(Previously Presented)** The method of Claim 21, further comprising
displaying a video of at least a portion of the first event.

27. **(Previously Presented)** The method of Claim 26, wherein the displayed
video is of at least a portion of a pre-recorded event.

28. **(Previously Presented)** The method of Claim 21, wherein the first wager is
associated with a first user, and further comprising recording data to a reward card associated
with the first user, wherein the recorded data is based at least in part on the determined result
of the first wager.

29. **(Currently Amended)** An apparatus, comprising:
- a memory operable to store track information; and
 - a processor communicably coupled to the memory and operable to:
 - cause a display screen to display a plurality of games associated with pari-mutuel wagering, **wherein each game is a respective type of casino-styled pari-mutuel wager;**
 - receive a selection of a first one of the plurality of games;
 - in response to the selection of the first game,** cause the display screen to display a plurality of tracks where the first game is available;
 - receive a selection of a first one of the plurality of tracks;
 - receive a first wager associated with a first event that is at the first track, wherein the first wager is based at least in part on the first game;
 - cause a display screen to display two or more options, wherein a first option is to switch tracks and a second option is to switch games, wherein:
 - if the first option is selected, then the processor is operable to:
 - cause the display screen to display at least a portion of the plurality of tracks where the first game is available;
 - receive a selection of a second one of the plurality of tracks;
 - and
 - receive a second wager associated with a second event that is at the second track, wherein the second wager is based at least in part on the first game;
 - and
 - if the second option is selected, then the processor is operable to:
 - cause the display screen to display a plurality of games that are available at the first track;
 - receive a selection of a second one of the plurality of games;
 - and
 - receive a third wager associated with a third event that is at the first track, wherein the third wager is based at least in part on the second game.

30. **(Currently Amended)** The apparatus of Claim 29, wherein:
the displayed options comprise a third option to play the first game again; and
if the third option is selected, then the processor is operable to:
 cause the display screen to display a plurality of events that are at the first track, wherein each event is a respective race; and
 receive a fourth wager associated with at least one of the displayed plurality of events, wherein the fourth wager is based at least in part on the first game.
31. **(Previously Presented)** The apparatus of Claim 29, wherein the processor is further operable to:
 cause the display screen to display at least one link to at least one instructional frame;
 in conjunction with receiving the selection of the first game, receive a selection of the at least one link; and
 cause the display screen to display the at least one instructional frame, wherein the at least one instructional frame comprises:
 a plurality of rules for playing the first game; and
 at least one simulated play of the first game according to the plurality of rules.
32. **(Previously Presented)** The apparatus of Claim 31, wherein the at least one instructional frame comprises a link to a game play frame, wherein the game play frame allows input of a wager associated with the first game.
33. **(Previously Presented)** The apparatus of Claim 29, wherein the processor is operable to:
 in response to receiving the selection of the first track, cause the display screen to display track information associated with the first track, wherein the track information comprises post times and odds.
34. **(Previously Presented)** The apparatus of Claim 29, wherein the processor is operable to cause the display screen to display a video of at least a portion of the first event.

35. **(Previously Presented)** The apparatus of Claim 34, wherein the displayed video is of at least a portion of a pre-recorded event.

36. **(Previously Presented)** The apparatus of Claim 29, wherein:
the first wager is associated with a first user; and
the processor is operable to record data to a reward card associated with the first user;
and
the recorded data is based at least in part on the determined result of the first wager.

37. **(Currently Amended)** An apparatus, comprising:

a user interface operable to:

display a plurality of games associated with pari-mutuel wagering, wherein each game is a respective type of casino-styled pari-mutuel wager;

receive a selection of a first one of the plurality of games;

in response to the selection of the first game, display a plurality of tracks where the first game is available;

receive a selection of a first one of the plurality of tracks;

receive a first wager associated with a first event that is at the first track, wherein the first wager is based at least in part on the first game; and

display two or more options, wherein a first option is to switch tracks and a second option is to switch games;

if the first option is selected, then:

display at least a portion of the plurality of tracks where the first game is available;

receive a selection of a second one of the plurality of tracks; and

receive a second wager associated with a second event that is at the second track, wherein the second wager is based at least in part on the first game;

if the second option is selected, then:

display a plurality of games that are available at the first track;

receive a selection of a second one of the plurality of games; and

receive a third wager associated with a third event that is at the first track, wherein the third wager is based at least in part on the second game.

38. **(Currently Amended)** The apparatus of Claim 37, wherein:

the displayed options comprise a third option to play the first game again; and

if the third option is selected, then the user interface is operable to:

display a plurality of events that are at the first track, wherein each event is a respective race; and

receive a fourth wager associated with at least one of the displayed plurality of events, wherein the fourth wager is based at least in part on the first game.

39. **(Previously Presented)** The apparatus of Claim 37, wherein the user interface is operable to:

display at least one link to at least one instructional frame;

in conjunction with receiving the selection of the first game, receive a selection of the at least one link; and

display the at least one instructional frame, wherein the at least one instructional frame comprises:

a plurality of rules for playing the first game; and

at least one simulated play of the first game according to the plurality of rules.

40. **(Previously Presented)** The apparatus of Claim 39, wherein the at least one instructional frame comprises a link to a game play frame, wherein the game play frame allows input of a wager associated with the first game.
